ABOUT US

0508TempFence has grown into one of Aotearoa's leading complete site-solution providers, delivering competitive pricing, fast and reliable service, and industry-leading products. Since 1999, we've continually refined our product range and systems with the support of industry experts, ensuring you receive only the highest-quality solutions.

Our goal is to keep your construction project or event running smoothly. We offer next-day delivery on all sales and hires to alleviate last minute stress.

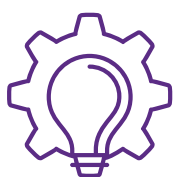

As one of New Zealand's preferred specialists in temporary fencing hire and sales, we know exactly what works on site. Our extensive product range includes; our NEW SmartWall, Temporary Fencing, Site Cameras, Crowd Control Barriers, Construction Barriers, Portable Toilets, Water Filled Barriers, Acoustic Curtains, and Temporary Pool Fencing.

We're committed to delivering secure, safe, and fully compliant site solutions that meet New Zealand Standards. From infrastructure and civil works to industrial, commercial, residential, and events, our team supports projects across the country. With branches in Auckland and Christchurch, we've got New Zealand covered.

OUR VALUES

OUR MISSION

We're ready to lead by offering solutions and value, set to achieve sustainable, profitable growth, by investing in our people, products and processes so that we can go out there and deliver the best customer experience.

INNOVATION

Harness our drive and passion to continually question everything we do. Challenge, change and commit.

OUR FOUNDATION

Treat everyone as we want to be treated, with honesty, integrity and respect.

TEAMWORK

Together we will challenge and support, collaborating on the things that will make a difference.

CUSTOMER

Being truly service focused, offering value and solutions and striving for 100% satisfaction is essential.

EXPLORE OUR PRODUCT RANGE

With over 25 years industry experience, we know what works on your site. We aim to provide our clients with high quality products, unrivalled site security & safety solutions. In addition to our traditional temporary fence solutions, we also offer a range of other products and services to help ensure your event is a success!

AND MUCH MORE!

TEMPORARY FENCING

Temporary construction fence is vital when it comes to managing and protecting your worksite. Whether the need is to prevent the public from entering a hazardous site, to providing security from equipment theft, to ensuring health and safety requirements are met, we have a temporary fencing solutions to help you. Our infrastructure systems have been specially designed and engineered to perform on any major project and with our unwavering commitment to OH&S and using quality products, we can provide unrivalled site security and safety solutions.

STANDARD FENCE PANEL SPECIFICATIONS

Panel size:	2400mm (W) x 2100mm (H)
Frame:	32mm O.D. - 2mm pipe wall thickness
Infill mesh:	4mm x 4mm, 150mm x 60mm spacings
Weight:	22kg
Finish:	Galvanised

ACCESSORIES & ADD-ONS

CAPABILITIES INCLUDE:

- Any size site, any hire period
- Fully engineered systems
- Night & weekend works

SUITABLE FOR:

- Civil
- Residential
- Major road and infrastructure projects
- Events

SUPPORT STAYS

Providing extra bracing strength and anchors to help prevent temporary fence from falling.

HOOK STAYS

Providing extra bracing strength and anchors to help prevent temporary fence from falling.

DOG BARS

Ideal for containing animals in a fenced area. Also prevents kids/balls going under fencing.

HAND RAILS

Reduce the potential trip hazard from fence feet protruding into pedestrian traffic areas.

GATE WHEELS

Attach to pedestrian gates or panels, allowing gates to be opened and closed more easily.

SHADE CLOTH

We offer a wide range of colours, densities and widths. Ask about wind proof options.

BARBED WIRE

1, 2 & 3 rows are available. Made to the highest standards, using premium grade wire.

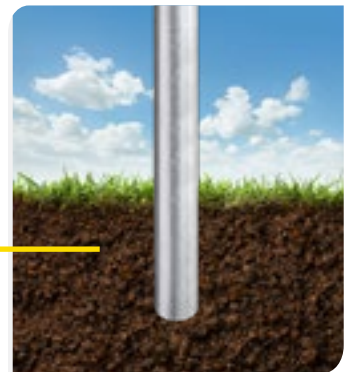

PEDESTRIAN GATE

Provides personnel entrances and exits to your temporary fence installations.

SEMI- PERMANENT FENCING

When you require something stronger and sturdier than normal temporary fence. Then you need our semi-permanent fencing.

For our Semi-Permanent fencing, we use a Rammed Post System that is stronger and sturdier than normal temporary fence. The added benefit is that it provides a no tripping hazard as the thick walled posts are driven into the ground, with no concreting required, so no residual damage. Our semi-permanent fencing is specially designed to withstand very harsh conditions and high wind forces.

BENEFITS:

- No need to use temporary fence feet and bracing
- No tripping hazards
- No concreting required, no residual damage

The rammed post system is suitable for most civil, commercial, residential, major road & infrastructure works and large scale events.

INTRODUCING THE SMARTWALL

State of the art in design, the NEW SmartWall utilises our temporary fence panel with a simple, yet effective, one-piece water filled barrier base.

SMART WALL

Our new SmartWall features a compact, narrow design that minimises tripping hazards. The low profile prevents objects from sliding underneath and the sloping sides deter climbing. It's strong and durable, with a brightly coloured base that ensures maximum visibility. Its sleek aesthetic makes the SmartWall ideal for high-profile sites where maximising the work area is essential.

FEATURES AND BENEFITS:

- Sleek aesthetic, ideal for high profile sites
- Narrow footprint, less encroachment on footpaths
- Easy to install or relocate with it's simple one-piece design
- Easy to lift handles on side and middle
- Cost effective transport, 36 SmartWalls = only 4 standard pallet spaces
- Low profile prevents anything sliding underneath
- Ideal for Infrastructure, Civil and Events

SPECIFICATIONS:

Length	2385mm
Height	464mm / 2100mm (with panel)
Width	388mm
Capacity	273 litres
Weight	31kg (empty) / 304kgs (water filled)

**EASY LIFT
HANDLES**

**NARROW
FOOTPRINT**

**COST EFFECTIVE

CROWD CONTROL BARRIERS

Managing a construction site or large scale event? Crowd control barriers are a must for creating a safe and secure environment to maintain safe crowd flow.

Whether it's for employees, guests, or the general public; it's important to have the appropriate temporary fencing solution to suit your situation.

Over the years we have supplied crowd control barriers to festivals, concerts, exhibitions, sporting events and work sites. We have the expertise to ensure your work site or event is both safe and secure, keeping people away from potential hazards while ensuring the safe movement of people.

Our strong, sturdy and durable crowd control barriers are lightweight, with stable flat feet. To reduce the risk of tripping further, the feet have holes for pegging or dyna-bolting.

Our crowd control barriers are 2.2m wide x 1.1m high.

CAPABILITIES INCLUDE:

- Any size site, any hire period
- Fully engineered systems
- Night & weekend works

| • Events | • Road & rail | • Water | • Bridges |
| • Ports | • Tunnels | • Energy | • Airports |
| • Sewers | • Telecommunications | | |

NOISE REDUCTION BARRIERS

(ACOUSTIC CURTAINS)

Noise reduction barriers are an essential element on construction projects to mitigate noise pollution emanating from the site. Allowing you to remain compliant and ensure noisy works are allowed to continue - even after hours and in residential areas.

Designed using world-leading acoustic technology, our noise reduction barriers, otherwise known as acoustic curtains, are made from high quality, lightweight materials, with the outer layer finished with water resistant PVC. Providing the most effective temporary sound solution, our noise reduction barriers protect employees and local communities from the harmful effects of excessive noise.

Our premium barriers are low centered to ensure noise can't penetrate beneath and with a strong insulated core they provide up to 20 decibels of sound absorption performance.

BENEFITS:

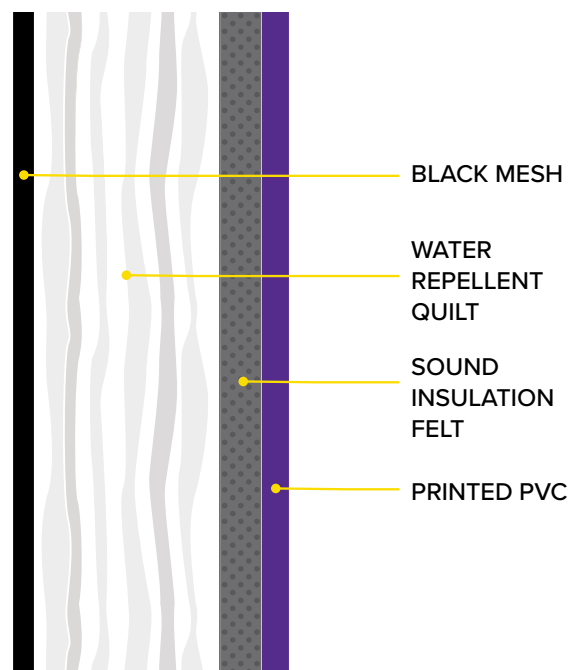

- Work in public spaces
- Use bigger machinery
- Conduct night works
- Reduce event generator noise
- Suitable for both indoor & outdoor use

SUITABLE FOR:

- Infrastructure projects
- Housing development sites
- Local events and much more...

INSTALLATION:

Our curtains are fitted with eyelets for easy attachment to temporary fencing/scaffolding on your site. They also come with a velcro strip securing each panel side by side for large scale noise reduction.

Scan the QR code to view our noise reduction barriers in action.

ACCESSORIES & ADD-ONS

SUPPORT STAYS

Providing extra bracing strength and anchors to help prevent temporary fence from falling.

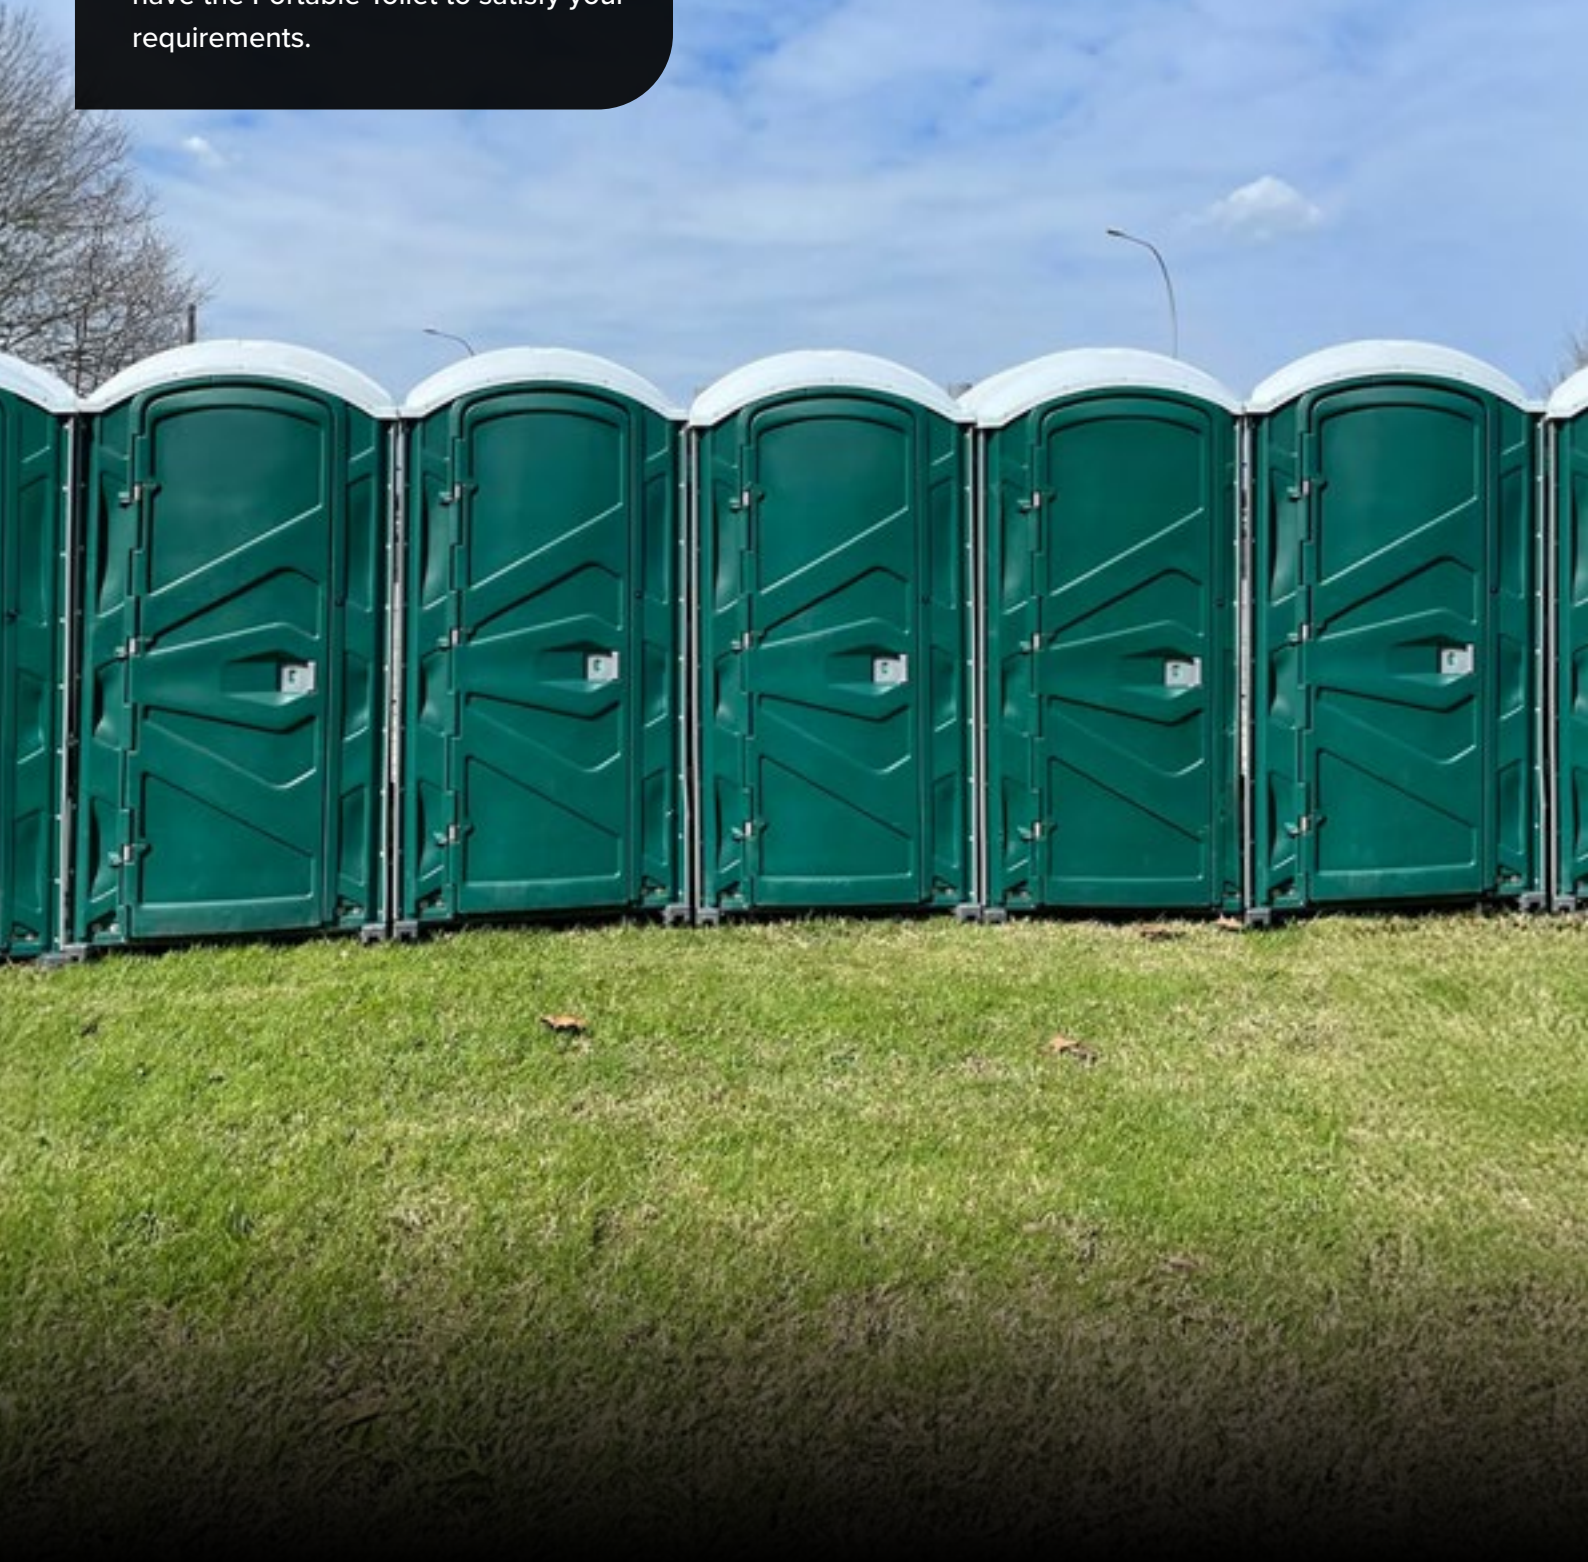

HOOK STAYS

Providing extra bracing strength and anchors to help prevent temporary fence from falling.

PORTABLE TOILETS

Portable toilets can be an essential requirement when you are running a construction site or event or own a rural property. At 0508TempFence we have the Portable Toilet to satisfy your requirements.

We provide safe, comfortable and hygienic mobile restrooms. Our versatile range is both modern in design yet ergonomically friendly. Designed using the latest technology our portable toilets are durable and built to withstand the demands of high usage and frequent movement.

All our toilets come with a fresh water flush. This provides the added benefit of increased sanitation and cleanliness, reducing the spread of waste and germs.

STANDARD TOILET

SPECIFICATIONS

Height	2,356mm
Width	1,181mm
Depth	1,232mm
Weight	68kg
Door opening	1,892mm x 711mm

TEMPORARY POOL FENCING

Building or renovating a pool? Ensure your site is safe with our high-quality temporary pool fencing.

Whether it is for a public or privately owned swimming pool, we can help. All our temporary pool fence solutions comply with the Building (Pools) Amendment Act 2016. Our barriers are not only reliable, sturdy and secure, but simple and easy to install and dismantle. With self-closing pool gates we ensure the highest level of safety. Providing you peace of mind that all visitors, family or construction workers are safe on your property.

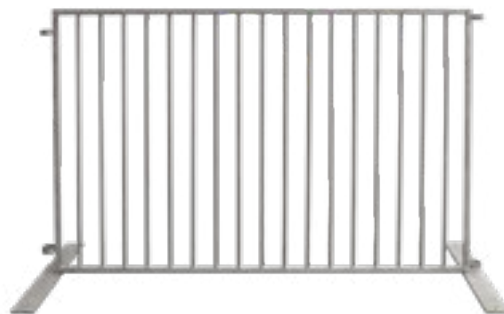

BENEFITS:

- Keep visitors, family or workers safe on your property by restricting access to your pool
- Complies with the Building (Pools) Amendment Act 2016

SUITABLE FOR:

- Residential swimming pools
- Spa renovations or builds
- Portable or inflatable pools

* This product restricts and limits access and should never be used as a substitute to active supervision. Supervision is vital to prevent drownings or water related injuries.

CONSTRUCTION BARRIERS

Our industry leading construction barriers are ideal for ensuring public safety on your worksite.

We work closely with various industry bodies to develop solutions that are both safe, robust and compliant. We are committed to providing the very best quality products for our customers. One such product is our construction barriers, built to include a highly visible netted mesh, with a 30mm x 30mm infill. They are designed to meet the Code of Practice for Temporary Traffic Management's (CoPTTM) requirement for Child Proof In-Filling of security fencing. Robust and durable, these lightweight barriers, are quick and easy to install. With stable flat feet to reduce the risk of tripping and added holes for pegging or dyna-bolting for extra stability.

CAPABILITIES INCLUDE:

- Any size site, any hire period
- Night & weekend works
- Ideal for ensuring public safety on worksites

SUITABLE FOR:

- Civil
- Commercial
- Events

WATER FILLED BARRIERS

Water filled barriers are a great safety barrier solution. Suitable for traffic management, work sites and for crash protection.

Our water filled barriers will help stop, contain and re-direct an impacting vehicle.

Easy to install and manoeuvre, our barriers are highly visible, sturdy and durable.

X-SITE WATER FILLED BARRIERS

Our X-Site is a heavy-duty pedestrian barrier that is designed to safely guide and control pedestrian movement, making it the perfect choice for managing crowd flow. It's ideal for road closures at events or construction sites where traffic management is required.

BENEFITS:

- Heavy duty for medium traffic zones
- Easy to install, with a simple interlocking system
- Can be fitted with anti-gawk and fence tops for added privacy

SUITABLE FOR:

- Road closures
- Events
- Construction sites

SPECIFICATIONS

Size:	600mm (W) x 990mm (H)
Effective length:	2200mm
Capacity:	4320 litres
Weight:	20kg (empty) 205kg (full)
Joining System:	Interlocking

SITE SECURITY CAMERAS

Monitor and protect your site and assets with our solar/wireless security camera systems. Whatever your site requirements, we have a camera to suit your needs, with in-ground, above-ground and container mount installation options. Reduce the risk of theft and gain peace of mind that your site or venue has complete 24/7 visibility.

BENEFITS

- Solar & Battery Powered
- Uses Telstra 4G Wireless internet
- High quality 4MP camera
- Advanced motion detection up to 20m range
- Email and push notifications to your mobile or tablet when motion is detected
- Flood light & strobe light can activate when motion is detected

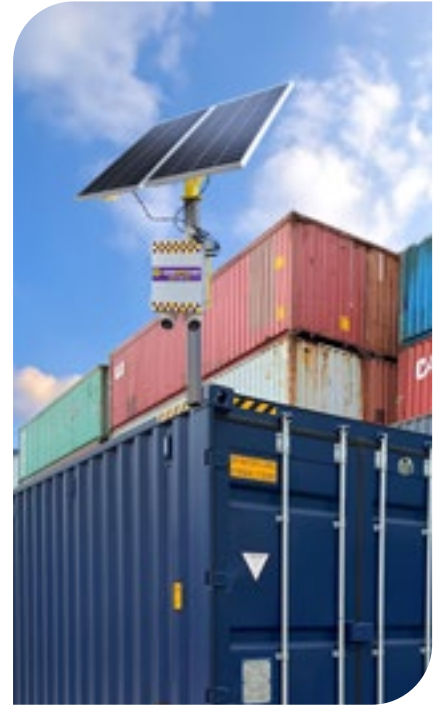

IN-GROUND

- 1 x 4m steel pole
- 1 x secure in-ground spike

ABOVE-GROUND

- 1 x 4m steel pivoting pole
- 1 x above-ground, weighted modular steel base, forkliftable

CONTAINER MOUNTED

- 1 x 1.2m extension pole
- 1 x anti tamper lockable shipping container mount

ALL MODELS INCLUDE:

Solar & battery
(no power needed)

24/7 Live view
(smart phone / tablet)

Artificial intelligence
(motion detection)

Alert emails
with 3 photos & app
push notifications

Telstra 4G wireless internet

Flood & strobe light
(on motion detection)

Night vision mode
(30m motion detection)

4MP wide angle camera lens

Water & dust resistant
(IP67)

OH&S

OUR CONTINUAL POLICY

We take a responsible approach to the way we work and behave, both inside and outside our organisation. As a growing business, we know we have an impact on our colleagues, our customers, the environment and our local communities, as well as on wider society and the economy.

At 0508TempFence, our top priority is ensuring that our company is a safe environment for both our colleagues and our customers. We're committed to providing a workplace that meets high safety standards, while equipping our team with the necessary knowledge and equipment to protect themselves on the job. This commitment extends to delivering safe fencing solutions and installations to protect both the workers on site and the general public. We ensure all our installers are fully compliant.

We're committed to providing our customers with the highest quality product at all times. We strive for excellence in everything that we do.
